Interim CFO & Controller

Etonien was founded to provide exceptional Interim CFO and Interim Controller services. Our firm's founders drew from their management experience within the Big 4 Accounting and National Consulting firms to provide much needed services to the nation's largest private equity firms, fortune 1000 businesses and a variety of complex middle market companies. Etonien Interim CFOs and Interim Controllers not only have exemplary educational backgrounds and industry experience, but their ability to seamlessly assimilate into complex situations makes our firm the industry leader in Interim CFO and Interim Controller services.

An Etonien Interim CFO

Our Interim CFOs have the much needed experience to assist their companies in affecting change, managing transitions, and improving operational efficiency - all at the speed of now. We employ only highly educated CFOs possessing an MBA and/or CPA with a minimum of 20 years of progressive business experience within complex public and private organizations.

An Etonien Interim Controller

At Etonien we understand the critical nature of accurate and timely financial controls, supporting our intense Interim Controller requirements of an MBA and/or CPA and a minimum of 15 years business operating experience in Fortune 1000 businesses, complex private equity companies, and public and private middle market organizations. Due to the growing number of CFOs in our employ and CFO clients we support, we realize the intrinsic value of a Controller being in place so the CFO can get their job done effectively.
